

V

DANCING DIZZY

Lyrics

*When they saw you there,
And they saw you smile,
You knew that they stared
For more than a while.*

*They will find you,
Turn around.
They will find you,
Turn around
To face, face, face me.
Face me.*

*And all you could see,
And that you knew —
That all of these things
Were you, were you.*

*And all you could see,
And all that you knew —
That all of these things
Were you, were you.*

*Dancing dizzy
In your arms.
Finding, flying
Free and warm.*

*Darkness fading;
Light was blazing.
Take me home
Into your arms!*

*They will find you,
Turn around.
They will find you,
Turn around.
Turn around.
Turn around.*

*And, then I did blush
To find that you knew.
From there rose a hush
As our music grew.*

*And all you could see,
And all that you knew —
That all of these things
Were you, were you.*

*And all you could see,
And that you knew —
That all of these things
Were you, were you.*
